

Release Notes

Firmware-Version V2.0b

For HP23-A / HP23-AW-A

Enhancements:

- none

Bugfix:

- Wrong calculation of °F when reference value at the reference value transfer from HP23-A to transmitter. This bug is fixed in V2.0b.
- Wrong time display at 12:00 AM and 12:00 PM in 12h-mode. This bug is fixed in V2.0b

Known bugs:

- none

Notes:

- The firmware version V2.0 is **NOT** backward compatible with the previous version of HP23 because all devices with the designation "-A" feature new hardware.
